Summary — Frontend & Full-Stack Developer with hands-on experience building responsive web applications using React and JavaScript. Skilled in developing clean user interfaces and backend functionality with Node.js and Express.js. Familiar with PostgreSQL and modern development workflows, and eager to contribute to scalable web products in a professional development environment.

Skills

Frontend: HTML, CSS, TailwindCSS, JavaScript, React.js, Next.js

Database: MongoDB, PostgreSQL, MySQL

Tools & Platforms: Git, GitHub, VS Code, AWS, GCP

Backend: Node.js, Express.js.

Languages: JavaScript, Java

Experience

Full Stack Developer Intern

Unfaro AI

Jun 2025 – Nov 2025

- Developed and delivered scalable features using React.js and Node.js for a dynamic web platform.
- Optimized backend APIs and database workflows, improving response speed and system reliability.
- Collaborated across design and engineering teams in an agile environment to ship production-ready solutions.

Software Engineering Intern

ECANVAS PVT. LTD

Jul 2024 – Aug 2024

- Developed and optimized a scalable web app for live consulting, serving 500+ concurrent users.
- Reduced API response time by 4% by optimizing PostgreSQL queries and implementing indexing.
- Implemented role-based authentication and CI/CD workflows for automated deployments.

Education

Gorakhpur Public School, Gorakhpur

Class 10 - 2018

RPM Academy, Gorakhpur

Class 12 - 2020

RajKumar Goel Institute of Technology, Ghaziabad

Btech-Computer Science and Engineering

2021-2025

Certifications

- Coursera - Data Analysis with R programming
- Coursera - Supervised Machine Learning: Regression and Classification

Projects

Scroll-Eats | React, JavaScript, CSS

- Built a food browsing web application with a clean and responsive user interface.
- Implemented basic features like listing food items and handling user interactions.
- Focused on component-based UI and simple state management in React.

AI Resume Analyzer | React, JavaScript, Tailwind CSS

- Built a web app to compare resumes with job descriptions and highlight missing skills.
- Implemented keyword matching and basic scoring logic using JavaScript.
- Designed a responsive UI with Tailwind CSS.

Employee Management System | React, JavaScript, CSS

- Built a web-based Employee Management System to manage employee records and basic operations.
- Implemented features such as adding, editing, and viewing employee information.
- Designed a simple and responsive user interface using React components.
