Summary — Frontend & Full-Stack Developer skilled in building responsive web applications using React, Next.js, JavaScript, and modern backend tools. Strong knowledge of UI development, API integration, performance optimization, and cloud deployment. Adept at delivering scalable, maintainable, and user-focused software solutions. Seeking opportunities where I can contribute to high-impact projects and grow as a developer.

Skills

Frontend: HTML, CSS, TailwindCSS, JavaScript, React.js, Next.js

Database: MongoDB, PostgreSQL, MySQL

Tools & Platforms: Git, GitHub, VS Code, AWS, GCP, CI/CD

Backend: Node.js, Express.js, FastAPI, Django, REST APIs

Languages: JavaScript, Python, Java, C

Experience

Full Stack Developer Intern

Unfaro AI

Jun 2025 – Nov 2025

- Developed and delivered scalable features using React.js and Node.js for a dynamic web platform.
- Optimized backend APIs and database workflows, improving response speed and system reliability.
- Collaborated across design and engineering teams in an agile environment to ship production-ready solutions.

Software Engineering Intern

ECANVAS PVT. LTD

Jul 2024 – Aug 2024

- Developed and optimized a scalable web app for live consulting, serving 500+ concurrent users.
- Reduced API response time by 4% by optimizing PostgreSQL queries and implementing indexing.
- Implemented role-based authentication and CI/CD workflows for automated deployments.

Education

Gorakhpur Public School, Gorakhpur

Class 10 - 2018

RPM Academy, Gorakhpur

Class 12 - 2020

RajKumar Goel Institute of Technology, Ghaziabad

Btech-Computer Science and Engineering

2021-2025

Certifications

- Coursera - Data Analysis with R programming
- Coursera - Supervised Machine Learning: Regression and Classification

Projects

Full-Stack Job Portal Web App | Next.js, Node.js, MongoDB, TailwindCSS

- Built a full-stack job listing platform with role-based dashboards for recruiters and applicants.
- Implemented features like job posting, application tracking, authentication, and profile management.
- Integrated backend APIs with JWT-based authentication and secure data validation.

E-Commerce Website | React, Express.js, MongoDB, Stripe

- Developed a complete e-commerce web app with product listings, cart management, user login, and payments.
- Added advanced features like search, filters, order history, and admin panel for inventory control.
- Optimized API responses and database queries for faster load times.

Real-Time Chat Application | React, Socket.io, Node.js

- Created a real-time messaging app with live chat rooms and typing indicators using WebSockets.
- Implemented responsive UI, emoji picker, chat history, and user online/offline status.
- Built scalable backend with Socket.io event handling and session-based user authentication.
