EDUCATION

Raj Kumar Goel Institute of Technology   Aug 2021 – June 2025
Bachelor of Technology, Computer Science | CGPA - 6.86/10
Relevant Coursework : Data Structures & Algorithms, Operating System, Distributed Systems, DBMS

EXPERIENCE

Full Stack Developer Intern   Jun 2025 – Nov 2025
Unfaro Ai
- Developed and delivered scalable features using **React.js** and **Node.js** for a dynamic web platform.
- Optimized backend APIs and database workflows, improving response speed and system reliability
- Collaborated across design and engineering teams in an agile environment to ship production-ready solutions.

Front End Developer Intern   Jul 2024 – Aug 2024
ECANVAS Pvt. Ltd
- Developed responsive and user-friendly interfaces using **React.js**, translating design mockups into high-quality front-end components.
- Implemented reusable UI components and managed client-side state to support interactive and scalable front-end features.
- Tested and refined layouts to ensure consistent visual behavior across browsers and screen resolutions.

PROJECTS

AI Resume Analyzer | Live Link | Repo Link
- Developed a **React-based web application** that compares resumes with job descriptions to identify missing skills and improve role-matching accuracy.
- Implemented keyword matching and basic scoring logic using **JavaScript** to provide relevance insights.
- Designed and implemented a fully responsive user interface using **Tailwind CSS**.

Scroll-Eats | LINK
- Developed a **React-based food discovery application** featuring an Instagram Reels–style vertical scrolling interface for browsing food items.
- Implemented smooth scroll-based navigation, interactive UI elements, and basic ordering actions using **JavaScript** and **React state management**.
- Optimized component rendering and state updates to ensure smooth performance during continuous scrolling.

Employee Management System | LINK
- Developed a **React-based Employee Management System** to manage employee records and perform common CRUD operations.
- Implemented add, edit, and view functionalities for employee records with efficient state management and form validation in React.
- Managed application state efficiently while applying modular **Tailwind CSS** styling to maintain a consistent and user-friendly interface across the application.

TECHNICAL SKILLS

Languages: Java, HTML, CSS, JavaScript
Backend: Node.js, Express.js
Frontend: React.js, Next.js
Databases: SQL, MongoDB
Tools & Platforms: Git, GitHub, Docker
Others: Websockets, CI/CD

ACHIEVEMENTS

* Participant, National-Level Hackathon (Hack2Skill, co-hosted by Google)
* Secured Fifth Position in a Line-Following Robot Competition
